

# REDS' GREATEST CLUTCH MOMENTS OF THE DECADE

## 80 TOP MOMENTS OF THE 1980'S

The Reds won 380 spring and summer games throughout the 1980's. That included 222 league wins and 52 postseason wins, including a total of 33 State Tournament wins.

Some of these victories were by significant margins (for example, the Reds 10-runned 151 of their opponents, including 46% of their spring opponents), and the Reds' average score in victories was 11-4 throughout the decade. But many of the games were close (85 of the victories were within 2 runs, 61 of which were decided by a single run), especially late in the season when it mattered most. These games required late-inning heroics, including more than a couple dozen games where the Reds had to come back from deficits in the last couple of innings to win. The Reds' season was at times down to its final strike, but the Reds came through to mount heroic victories.

The Reds of the 1980's had to defeat numerous future pro pitchers, including some that had never lost a high school game prior to facing the Reds in the State Tournament.

Even a number of the games that ended in the Reds' favor by a comfortable margin were only decided after the Reds had "that one inning", where the Reds scored 5 to 12 runs to put away an otherwise tight ballgame. A number of comebacks and late-inning heroics in summer league games and non-rival spring games have been eliminated from below to showcase only the Reds' Top 80 clutch moments of the decade. Of the 80 games listed below, the Reds trailed 30 times (sometimes by as many as 5 to 8 runs), were tied late in the game another 33 times, and had to hold onto 1 or 2 runs leads in nearly all of the other games listed below.

Note: In spring games throughout the 1980's, the Reds played in a District Tournament and typically had to win 1-2 games (though not the championship game, and in some years the Reds were protected to advance to the State Tournament by virtue of winning the league championship) in order to be one of 16 teams to qualify for State, and then played a single-elimination tournament from there. Summer tournaments were similar, though with an 8-team double-elimination District Tournament in which the Reds needed to finish within the top 3-4 teams in order to then advance to an 8-team double-elimination State Tournament. Below are the results from games that were in doubt late or that had the Reds trailing by many runs at any point.
